

Technical Staff
Items of Interest--Week of 3 March 1980

25X1

This case serves as a reminder to exercise caution when decompartmenting TK information and when using references containing decompartmented material. Also, analysts are reminded to surface occurrences of possible misclassifications or unauthorized disclosure to the TCO. [REDACTED]

2. Comparator utilization is still growing. Usage during CY 1979 was 19% greater than CY 1978 and use during the first two months of 1980 was 15% greater than the 1979 monthly average. During February, the three primary instruments were used a daily average of over 13 hours, or greater than 4 hours a day each. [REDACTED] course should result in even greater future utilization as analysts become more familiar with the comparators and more confident with them as analytical tools. [REDACTED]
